New Releases for the Southwest:

LF 2024 SW GeoArea & Early Spring MoD-FIS:

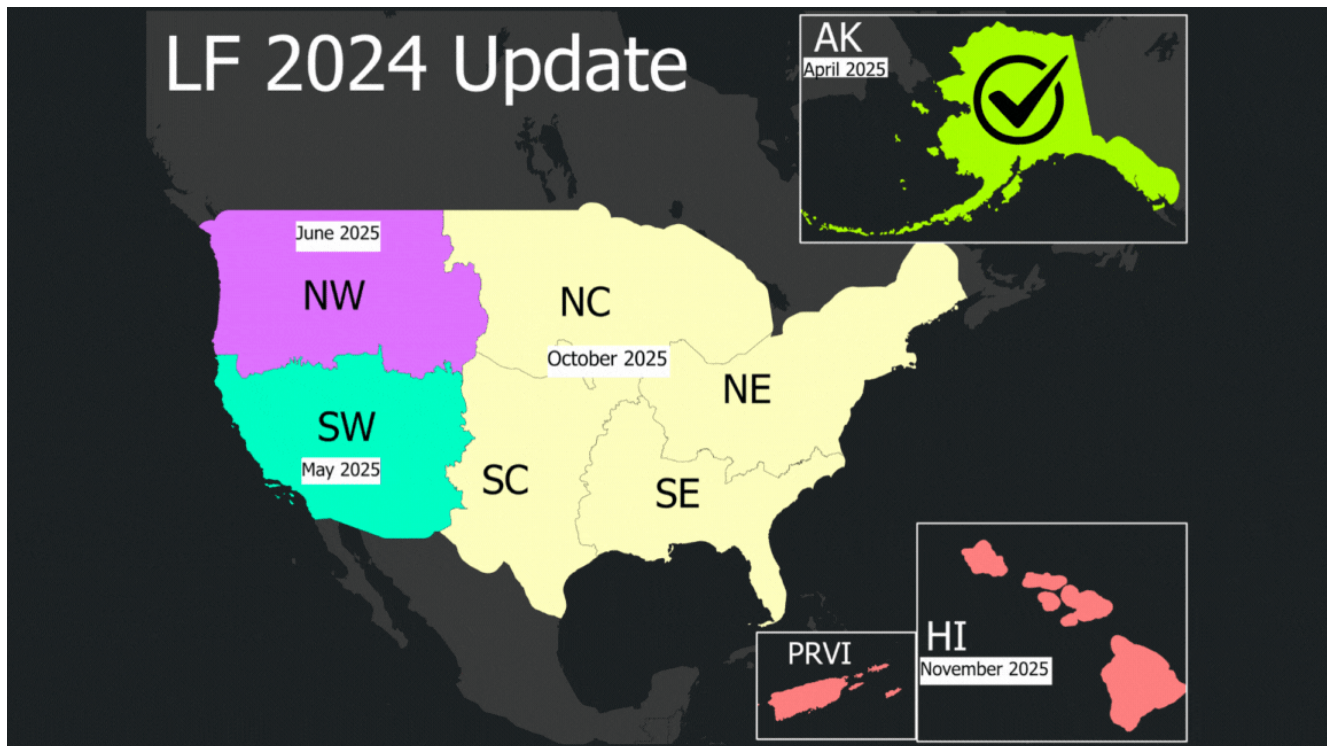

LANDFIRE's 2024 Product release is in full swing. Next up: NW GeoArea (in June)!

A note on MoD-FIS - ***“Seasonal MoD-FIS has provided adjusted fuel model (Scott and Burgan 2005) map data in the Great Basin and Southwest regions based on season specific assessments of herbaceous cover acquired from a comparison of current year Normalized Difference Vegetation Index (NDVI) and Web-enabled Landsat Data (WELD).”***
