### North-Central Interior Large River Floodplain

**Macrogroup: Large River Floodplain**

#### Description:
A complex of wetland and upland vegetation on floodplains of medium to large rivers in the Ohio River drainages. Vegetation is variable, dominants often include silver maple, sycamore, green ash, American elm, sweet gum, pin oak, and swamp white oak. Understory species are mixed, but include sedges and shrubs such as buttonbush. A single occurrence may extend from river's edge across the outermost extent of the floodplain or to where it meets a wet meadow or upland system. Examples may contain well-drained levees, terraces and stabilized bars, herbaceous sloughs and shrub wetlands. Most areas are inundated at some point each spring; microtopography determines how long the various habitats are inundated.

#### Ecological Setting and Natural Processes:
Occurs along large rivers or streams where topography and alluvial processes have resulted in a well-developed floodplain. Soils range from very well-drained sandy substrates to very dense clays. Occasional severe floods can alter the system; exotic shrubs and herbs are a greater threat to floodplain communities than to other terrestrial habitats.

#### Similar Habitat Types:
Natural processes are similar to those of other large river floodplain systems. Vegetation may be most similar to Central Appalachian Large River Floodplains. Only a small northeastern portion of the large geographic extent of this system is in our region.

#### Crosswalk to State Name Examples:
Montane - Piedmont Bottomland Forest (MD), Riparian Thickets/Forests (PA), Piedmont / Central Appalachian River Birch - Sycamore Forest (VA), Floodplain Forests And Swamps (WV)

**Places to Visit this Habitat:**
- Conewango Swamp Wildlife Management Area | NY
- Hartson Swamp Wildlife Management Area | NY
- Erie National Wildlife Refuge - Seneca Division | PA
- Meadow River Wildlife Management Area | WV
- Monongahela National Forest | WV

**Associated Species:** Appendix lists scientific names

**BIRDS:** american bittern, bald eagle, cerulean warbler, green heron, prothonotary warbler, virginia rail, warbling vireo, willow flycatcher

**HERPTILES:** eastern hog-nosed snake, eastern massasauga, eastern ribbonsnake, northern leopard frog, red-eared slider, spiny softshell, upland chorus frog

**INSECTS:** blue-faced meadowhawk, broad-winged skipper

**PLANTS:** greater bladderwort (Utricularia macrorhiza), green arrow-arum (Peltandra virginica), hairy swamp loosestrife (Decodon verticillatus), harbinger-of-spring (Erigenia bulbosa), northern water-plantain (Alisma triviale), poison-sumac (Toxicodendron vernix), purple-rocket (Iodanthus pinnatifidus), river seedbox (Ludwigia leptocarpa), shootingstar (Dodecatheon meadia), sword bogmat (Wolffiella gladiata)

**Species of Concern (G1-G4):** Appendix lists scientific names

**HERPTILES:** green salamander, hellbender, jefferson salamander

**INSECTS:** eyed brown, two-spotted skipper

**PLANTS:** Appalachian sedge (Carex appalachica), hard-stemmed bulrush (Schoenoplectus acutus), large marsh St. John's-wort (Triadenum tubulosum), nodding rattlesnake-root (Prenanthes crepidinea), stout smartweed (Polygonum robustius)
