

Science-based management to effectively live with wildland fire.

The University of Idaho Spring 2018 Online Course *Prescribed Fire for Ecologically-Based Management*

In coordination with The Nature Conservancy's Fire Learning Network, the UI College of Natural Resources Offers an upper-division companion course for *Prescribed Fire Training Exchanges (TRES)*

Audience: This course is designed for non-degree seeking fire professionals, aspiring fire professionals, fire practitioners, enrolled undergraduate and graduate students, and anyone interested in increasing their knowledge of fire ecology, management, and related ecological sciences. Tuition rates are strictly in-state, regardless of residency. These credits count toward ecology or management in range, wildlife and forestry coursework, as well as the GS 401 series.

Course Number: FOR 444 Section 2; CCN 69046 – *Prescribed Fire for Ecologically-Based Management* (2-3 upper-division forestry credits). Students gain experience using prescribed fire and evaluating fire effects across a variety of ecosystems where TRES occurs. Rolling enrollment and asynchronous timing (students must first be admitted to a TRES session; contact Jeremy Bailey at: jeremy_bailey@tnc.org).
