## Available NOW:

These (3) significant releases mark the midway point of the year for LANDFIRE and the LF 2023 release schedule. Scroll down to see what is coming up next, or [check out the full schedule here.](#)

### LF 2023 Update - Southwest

**Southwest:** The first GeoArea to release the LF 2023 product suite is available now. This update includes LF 2023 Vegetation, Fuels, and Historical & Preliminary Disturbance (PDist).

**Get LF 2023  
Southwest  
Products**

### Spring 2024 MoD-FIS

**MoD-FIS:** A strategy for mapping dynamic fuels that addresses the temporal precision needed to model fire behavior with seasonal variability.

**Get Spring 2024 MoD-FIS**

## LF 2023 Operational Roads

**Operational Roads:** The Operational Roads product offers comprehensive coverage of existing roads and can be combined with other spatial data layers to aid decisions (i.e. firefighting equipment access, control points during fires, and potential evacuation routes).

**Get LF 2023 Operational Roads**

LOCATION	LANDFIRE PRODUCT	DATE
Southwest	Early Spring MoD-FIS	May ✓
Alaska	LF 2023 Disturbance, Vegetation, Fuel	May ✓
